● Blister of 6 ● Tin of 12 ● Tin and wooden box of 24 ● Tin of 36 ● Wooden box of 48 ● Tin of 72 ● Wooden box of 72

Please note that the contents may be substituted at any time with a product equal or superior to that specified.

Lightfastness rating (LF) = 3,4 – FAIR, MODERATE | 5,6 – GOOD, VERY GOOD | 7,8 – EXCELLENT | V – Vegan-friendly.

Derwent uses the Blue Wool test (ISO 105) to evaluate lightfastness. Lightfastness refers to the chemical stability of a pigment under long exposure to light. A scale of 1-8 is obtained, with values of 6 or higher being considered to be highly lightfast and, under museum conditions, will not fade for 100+ years.

PROFESSIONAL QUALITY
